Vis 2

Compare Continents.

temp.

emission

Year

Year

Focus:

Vis1 : multiple view
click, zoom,
highlight areas, major cities
Bar chart → highlight & popup message
of type of gas emission.

Design Sheet 3.
Divya sreenivasan

Task: Climate Change
Greenhouse gas emission

Operations:

- Select a country.

- Line & Bar displays the values for the respective countries.

The animation can be stopped in between to get the curve at the particular year

Discussion:

New design aspect required.

Try to integrate Design 1, 2, 3 to get the final design template

Some animation?

Same type of graphs repeated

Vis1 ↔ Vis 2 something diff to show
